OUR DEMOCRACY IS ENDANGERED. STOP THE EXPLOITATION OF THE 9/11 CRIMES AS A JUSTIFICATION FOR WAR, PROFIT AND REPRESSION.

To Criminal Prosecutors in the United States and Abroad:

Sufficient probable cause exists to convene grand juries, initiate investigations and indict persons within and without the United States government for treason; high crimes and misdemeanors; crimes against humanity; gross negligence; and aiding, abetting, and concealing the crimes of Sept. 11, 2001.

We call on you to consider the case made last year in the Citizens Complaint and Petition to New York Attorney General Eliot Spitzer (archived at www.Justicefor911.org); and the summaries of evidence presented in the books *The New Pearl Harbor* and *Omissions and Distortions* by David Ray Griffin, *Crossing the Rubicon* by Michael C. Ruppert, and *The War on Truth* by Nafeez Ahmed. And also to consider the case that the WTC complex was brought down by explosives, as presented by Jim Hoffman at wtc7.net and 911review.com.

The Attorney General has so far ignored the case for probable cause; we therefore call on other US prosecutors and the new International Criminal Court to step in and assist the people of the United States in procuring justice.

Fellow New Yorkers!

Our government lied to us about 9/11. Our political system has been hijacked. The people leading the executive branch should have long ago been indicted for treason and crimes against humanity. New York was the target of this "New Pearl Harbor." What do we intend to do about it? Shall we stay silent? Or shall we assume the responsibility of citizenship and take action? We the people are supposed to *be* the government. The way things are going, this may be our last chance to get it right.

Reporters!

The mock headlines on the front page of this paper refer to real stories that have gone uncovered in the US mainstream media. They only scratch the surface of the 9/11 deception. Credible whistleblowers and smoking-gun documents are out there for you to discover, if only you are willing to take the risk. If you do not act, how much longer do you expect press freedom to survive?

Law Enforcement Community!

You lost many of your own on 9/11. People at the FBI and other agencies have come forward to say that counter-terror probes were intentionally obstructed. Have you been sent to watch peaceful protesters, when you should be more concerned with what happened on 9/11, and with who was really responsible?

Fellow Truth Marchers!

Take a look around you. Whatever our numbers today, together we could mobilize ten times as many people in a month. Research and Internet campaigns cannot alone force accountability on an illegitimate government and the obedient corporate media. History shows that this can happen only through non-violent people power, on the scale of millions taking to the streets. Let us reach out with open hearts to our neighbors. People power movements always begin with two elements: a handful of people, and an unyielding devotion to justice and truth.
